**Project**  
**Water Factory**

**Project Value**  
**£50,000**

A poolside water factory was designed to generate revenue and attract children of all ages and abilities to play, whilst allowing the teaching pool to be free from play equipment during swimming sessions. Features included 2 waterballs joined by span arms, a variety of interactive arms and interactive channels with fill and spill buckets. This provided a total of 37 interactive water points.
