Magnet Leisure Centre

Project
**Water Factory
& Splash Zone**

Project Value
£90,000

Hippo's refurbishment was needed to increase visits from children of all ages whilst providing something special for the over eights age group. Hippo installed 2 poolside water cannons to squirt water at a selection of targets situated over the teaching pool. Water falling from the targets into tipping buckets provides surprise play to those in the pool below. A mini flume was installed to excite the over eights. A Splash Zone featuring sensory play panels and a refurbished customised toddler slide was provided for the toddlers. A total of 33 interactive water points were installed.
