

Waterball

Replace an existing water feature or rejuvenate an empty, lifeless area of your pool with a highly visual Waterball.

- Choice of colours
- Configurations to suit most budgets and pool areas
- Custom themed designs available

Waterball options

WB001 Waterball

A great way to introduce low level play in your pool. Toddlers will love the standard features such as the fill and spill buckets, hand wheels and cannon jets, which will help to develop their water confidence. A great centre piece for a Toddler Splash Zone.

WB002 Waterball and Interactive Mast with 2 Arms

Add a Mast to a Waterball for a combination of high and low level water play to entertain children of all ages. Please go to the Interactive Water Features section to see our Mast Options.

WB003 Waterball and Interactive Mast with 4 Arms

Add to the surprise and anticipation with 4 Arms. Please go to the Interactive Water Features section to see our Mast Arm options.

WB004 Waterball All Inclusive

The ultimate Waterball fun! Tipping, Splashing and Spraying from a number of water points and a custom themed topper of your choice will keep children of all ages amused. If you already have a Waterball why not add extra Arms, a topper or expand it into a Splash Zone with Interactive Water Channels and Mini Masts.

WB005 Fill and Spill Buckets

Filled from water jets off the Waterball, and hand tipped to release the water.

WB006 Hand Wheels

Operate a 4 way valve inside the Waterball controlling the water flow through the water jets.

WB007 Cannon Jets

High volume, low pressure jets that create a gentle flow of water into the pool or an interactive channel.
