

Interactive Mast

The Hippo Mast is a perfect replacement for an old existing water feature such as a Mushroom Shower, or can be used to create a Water Arch to another area. Our Interactive Masts are extremely versatile and have been designed to fit with other products, or be installed as stand-alone features.

- The height is customised to suit the location
- An assortment of colours and bespoke theming to a design of your choice are available

Interactive Mast options

IM001 Interactive Mast with 2 Arms

Bring excitement to your pool by utilising your existing water supply or replacing a tired mushroom. Children will love the tipping, spraying and squirting actions that come from 2 Interactive Arms of your choice. Please go to the Interactive Water Features section for our full range of Arms.

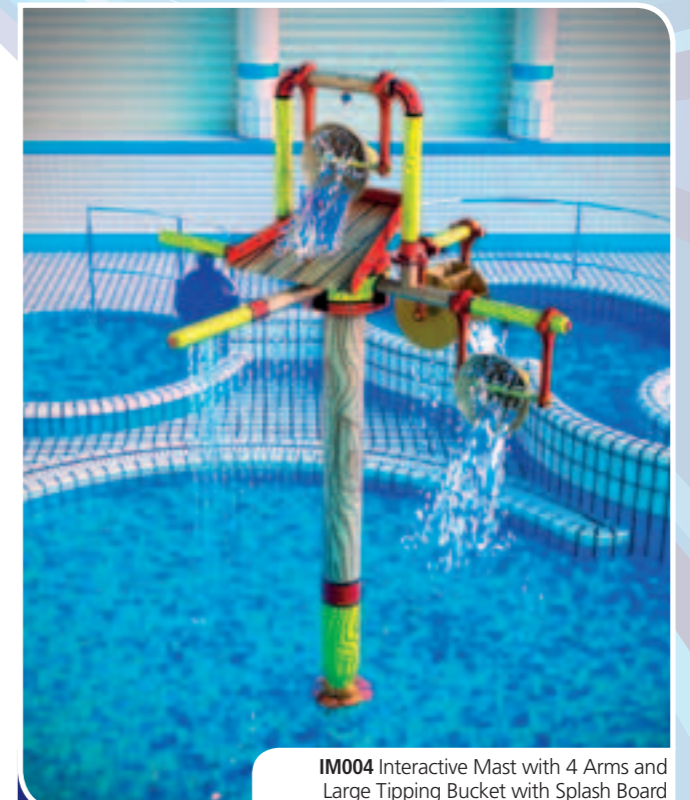

IM002 Interactive Mast with 2 Arms and Large Tipping Bucket with Splash Board

Add an element of big splash play! Children will love the Large Tipping Bucket that cascades water onto the Splash Board at surprise intervals, soaking them as they play below it.

IM003 Interactive Mast with 4 Arms

Why not create double the fun and choose 4 Arms for your Interactive Mast. If you already have a 2 Arm Hippo Mast at your pool why not refresh your feature by adding extra Arms! Please go to the Interactive Water Features section for our full range of Arms.

IM004 Interactive Mast with 4 Arms and Large Tipping Bucket with Splash Board

This all squirting, all splashing version of our Mast will have visitors streaming into your pool! If you already have a Hippo Mast why not expand it by adding extra Arms and a Large Tipping Bucket with Splash Board! Please go to the Interactive Water Features section for our full range of Arms.
