Project
Flume Slide

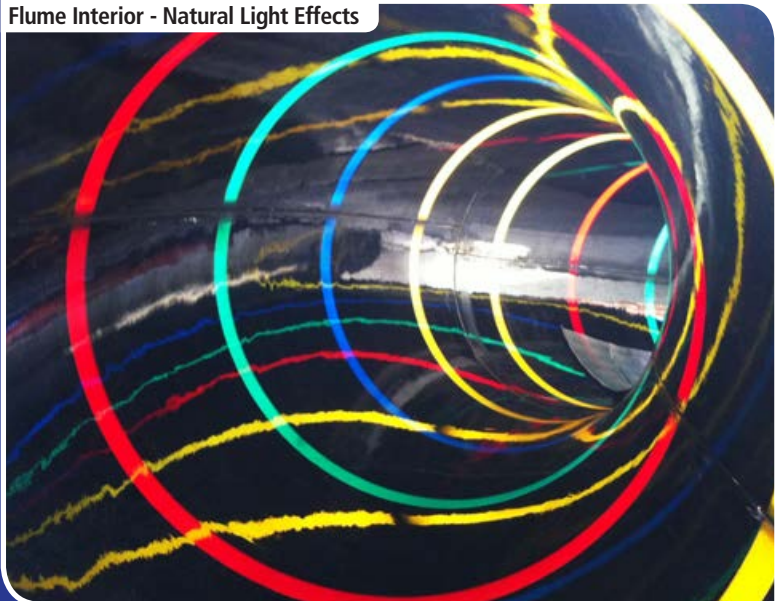

Project Value
£166,600

Blackwater Leisure Centre's recent refurbishment programme incorporated commissioning Hippo Leisure to design and install a new anaconda flume slide. The bright and vibrant flume has been created to rejuvenate the pool hall and encourage regular visits from families.

The 66m flume slide made up of closed and open sections, takes children and adults on a magical journey which includes bright and colourful natural light effects and ends with a big splash as they land in a plunge pool! Magic shine technology is used to give a shiny appearance on both the inside and outside of the flume slide.

Hippo's installation included a new steel spiral staircase with GRP step treads, which provides safe access and adds to the visual appeal of the flume construction.
